## **An Overview: Indian Technical Textile Industry**

**T**echnical textiles are textile materials and products used for their technical performance and functional properties. Technical textiles are an important part of the textile industry and its potential is still largely untapped in India. The market for Technical Textiles is expanding as the products are being put to use by an ever-increasing number of end users in various industries such as protective wear, agriculture, clothing, construction, health care, transportation, packaging, sports, environmental protection and more. Thriving on end user segment growth and domestic consumption, the domestic market is projected to reach Rs.2,00,823 cr. by 2020-21 with a compounded annual growth rate of whopping 20%. Today India accounts for 3% of the world Technical Textiles production and have a 4% share of global Technical Textiles exports.

Ministry of Textiles, Govt. of India has designed and launched many schemes for growth and development of technical textiles. The govt. of India is also aggressively promoting indigenous manufacture of technical textiles to exploit the global opportunities and cater to the domestic demand as well.

## **NITRA: Pioneering the Development of Indian Technical Textile Industry**

Ministry of Textiles, Govt. of India has designated NITRA as Centre of Excellence (CoE) for Protective Textiles & Automotive Textiles with providing infrastructure for developing expertise and technical capability for quality evaluation, product development and knowledge dissemination in the field of protective textiles – a major segment of Technical Textiles. Similarly, to live up to the govt.'s trust,

NITRA scientists had also come up with many innovative products in this domain such as Military and Paramilitary Uniforms from NYCO, Cut Resistant Gloves from Composite Metallic Yarn, and Development of Fabric for Stab Resistant Vest to name a few. A special thrust is also given on the Focus Incubation Centre (FIC), also established at NITRA, where it will provide necessary facilities and technical guidance to encourage entrepreneurs for testing new ideas and technologies and thereby leap forward to more innovations in the products that they make.

## **About The Event**

NITRA is organizing Tech-Tex: A Conference on Protective and Automotive Textiles at its campus in national capital region Ghaziabad near Delhi on Saturday, 16<sup>th</sup> of February, 2019. It is a perfect platform for delegates to become familiar with cutting edge technologies of Technical Textiles developed across the world and available in India. This conference cum exhibition aims to introduce to the industry the major technological breakthrough that has taken place in this sector by virtue of presentation and deliberation by the core researchers and veteran industry professionals. Spotting industry needs, assessment of research capacities and boosting existing market is also a major objective of organizing Tech-Tex. The conference also provides the best chance for Technical Textiles manufacturers to introduce their products to national and international market.

As an added attraction, NITRA is hosting another very interesting event 58<sup>th</sup> Joint Technological Conference, a mega textile-technology conference organized by the four TRAs, on the previous day i.e. on Friday, 15<sup>th</sup> of February, 2019 at the same venue. Without doubt, participating in both the events is a once-in-a-blue-moon opportunity for entrepreneurs and professionals to enrich their knowledge both in conventional textiles as well as in the most emerging area of textiles.

With this backdrop, we earnestly request you to register as many delegates as possible from your esteemed organization, so as to take maximum benefit out of these two conferences.

**Event Eminent Speakers will be from**  
**Representatives of Indian Army**  
**Representatives of Indian Navy**  
**Representatives of CRPF**  
**Representatives of Bureau of Indian Standards( BIS)**

The above representatives will talk about their sourcing in the specific areas

**Show Your Product/Technology to Industry Captains!**

Event sponsorship package is available in the following categories:

**Platinum Band – Rs. 1,00,000/-**

**Gold Band - Rs. 75,000/-**

**Silver Band - Rs. 50,000/-**

18% GST applicable

**Advertisement in the book of abstract**

**Front inner full page Rs. 20,000/-**
