

ECO LABORATORY

(Testing as per International/National Standards)

S. No.	Nature of Test (Test Parameter)	Commonly Used Test Method	NITRA Charges (INR)
1	Carcinogenic Aromatic Amines released from Banned Azo Dyes	ISO 14362-1/ IS 15570	3000.00
2	Heavy Metals (Cd, Co, Cr, Cu, Hg, Ni, Pb)	ISO 105-E04/ IS 15651A/ Acid Extraction	600.00 (per metal) plus 400/- extraction charges
3	Hazardous Substances (Cd, Pb, Hg, CrVI)	SES N 2402/MS 201- 02	3000.00
4	Other Metals like- Na, K, Mn, Fe, Zn	Acid Extraction	600.00 (per metal) plus 400/- extraction charges
5	Free Formaldehyde	ISO 14184-1/ IS 14563-1	900.00
6	Releasable Formaldehyde	ISO 14184-2/ IS 14563-2	1200.00
7	pH of Aqueous Extract	ISO 3071/ IS 1390 (Cold))	300.00
8	Pentachloro Phenol (PCP)	Solvent Extraction	1500.00
9	Residual Chlorine	IS 2350	900.00

* The testing charges are same for members and non-member customers.

* Applicable GST Extra

Sample quantity for routine Eco parameters: For routine 5-6 eco parameters 1.0 meter or 250 g sample is sufficient.

Notes

1. A minimum size of sample as given in the schedule is a must to ensure reliable and accurate test results.
2. Sample should be accompanied with a request letter containing parameters to be tested and advance payment in favor of NITRA, Ghaziabad.
3. The sample must be random and representative of the bulk.
4. For further details contact Dr. A. A. Ansari, Head/Officer In-charge, Eco Laboratory on +91-9811761042.
